

**CHASSELL TOWNSHIP SPECIAL MEETING
SPECIAL ASSESSMENT DISTRICT TREATMENT
July 31, 2019**

The meeting was called to order at 7 p.m. by Dave Mattson

PRESENT: Lynn Gierke, Ryan Kuntze, Dave Mattson

Absent: Kelly Holmes, Dan Palosaari

Dave Mattson started off the meeting explaining why we were meeting tonight. He explained that at the last board meeting, the board decided we would not treat again, without a second opinion, unless the situation seemed emmett and we would then call a special board meeting to decide.

On July 29th, 2019, Jason Broekstra, Biologist from PLM Land & Lake Management Corp. sent email with treatment recommendations after survey from July 22, 2019. Treatment of bay would occur on week of August 12 due to this meeting.

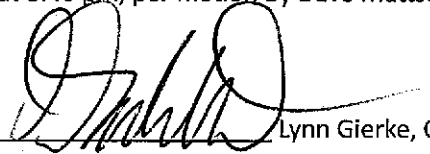

The Citizen's Committee for Pike Bay Restoration recommends accepting PLM's recommendations for EWM treatment for the Summer of 2019.

The board and public discussed pros and cons of 2019 treatment of the bay.

Ryan made a motion to not treatment this year and have independent consultant, assess the bay conditions next year, before treatment. Dave Mattson supported. M/C.

The meeting was adjourned at 8:40 pm, per motion by Dave Mattson, supported by Lynn Gierke. M/C

Dave Mattson, Supervisor

Lynn Gierke, Clerk
